JOURNAL OF
Contaminant
Hydrology

Contents Volume 26, 1997

VOL. 26, NOS. 1–4

Special Issue "MIGRATION 95", by J.I. Kim and R. Guillaumont (Guest Editors)

Preface, by J.I. Kim and R. Guillaumont (Guest Editors) ix

Introduction, by G. de Marsily (Editor) xi

(A) Natural Analogues

Natural analogue studies: present status and performance assessment implications
J.A.T. Smellie, F. Karlsson and W.R. Alexander 3

Development and application of a model for the long-term alteration of UO_2 spent nuclear fuel. Test of equilibrium and kinetic mass transfer models in the Cigar Lake ore deposit
J. Bruno, I. Casas, E. Cera and L. Duro 19

The use of kinetic modelling as a tool in the assessment of contaminant release during rehabilitation of a uranium mine
P.L. Brown and R.T. Lowson 27

Modelling of the migration of trace elements along groundwater flowpaths by using a steady state approach. Application to the site at El Berrocal (Spain)
L. Duro, J. Bruno, P. Gómez, M.J. Gimeno and P. Wersin 35

Mineralogical and geochemical evidence of the migration/retention processes of U and Th in fracture fillings from the El Berrocal granitic site (Spain)
L. Pérez del Villar, M. Pelayo, J.S. Cózar, B. de la Cruz, J. Pardillo, E. Reyes, E. Caballero, A. Delgado, R. Nuñez, M. Ivanovich and S.E. Hasler 45

Migration behavior of naturally occurring radionuclides at the Nopal I uranium deposit, Chihuahua, Mexico
J.D. Prikryl, D.A. Pickett, W.M. Murphy and E.C. Pearcy 61

Constraints on transport in the Tournemire clay site
J.-C. Barescut and J.-L. Michelot 71

(B) Migration Experiments

Transport of radionuclides in natural fractures: some aspects of laboratory migration experiments
T.T. Vandergraaf, D.J. Drew, D. Archambault and K.V. Ticknor 83

Analysis of the migration of nonsorbing tracers in a natural fracture in granite using a variable aperture channel model
C.-K. Park, T.T. Vandergraaf, D.J. Drew and P.-S. Hahn 97

Effective diffusivity of the uranyl ion in a granite from Inada, Ibaraki, Japan
T. Yamaguchi, Y. Sakamoto, S. Nakayama and T.T. Vandergraaf 109

Experimental and modelling studies on diffusion of Cs, Ni and Sm in granodiorite, basalt and mudstone
H. Sato, T. Shibutani and M. Yui 119

0169-7729/97/$17.00 © 1997 Elsevier Science B.V. All rights reserved

Radionuclide transport and retardation in rock fracture and crushed rock column experiments
P. Hölttä, M. Siitari-Kauppi, M. Hakanen, T. Huitti, A. Hautojärvi and A. Lindberg 135
The effect of microscale pore structure on matrix diffusion—a site-specific study on tonalite
M. Siitari-Kauppi, A. Lindberg, K.H. Hellmuth, J. Timonen, K. Väätäinen, J. Hartikainen and K. Hartikainen 147
Surface complexation modeling of Yb(III) sorption and desorption on hematite and alumina
N. Marmier, J. Dumonceau and F. Fromage. 159
Release of clay particles from an unconsolidated clay–sand core: experiments and modelling
M.-H. Fauré, M. Sardin and P. Vitorge 169
Tracer test at El Berrocal site
M. García Gutiérrez, J. Guimerà, A. Yllera de Llano, A. Hernández Benitez, J. Humm and M. Saltink 179
Field tracer experiment in a low permeability fractured medium: results from El Berrocal site
M. D'Alessandro, F. Mousty, G. Bidoglio, J. Guimerà, I. Benet, X. Sánchez-Vila, M. García Gutiérrez and A. Yllera De Llano 189
Field-scale colloid migration experiments in a granite fracture
P. Vilks, L.H. Frost and D.B. Bachinski. 203
Joint inversion of tracer tests using reversed flow fields
H. Kunstmann, W. Kinzelbach, P. Marschall and G. Li 215

(C) Modeling

Coagulation of colloidal material in surface waters: the role of natural organic matter
K.J. Wilkinson, J.-C. Nègre and J. Buffle 229
Assessment of the effect of kinetics on colloid facilitated radionuclide transport in porous media
H. van de Weerd and A. Leijnse. 245
A new approach for modelling potential effects in cation adsorption onto binary (hydr)oxides
J. Lützenkirchen and Ph. Behra 257
An efficient time scaling technique for coupled geochemical and transport models
I. Neretnieks, J.-W. Yu and J. Liu 269
Intercomparison between TRIO-EF and IMPACT codes with reference to experimental strontium migration data
L. Trotignon, M.-H. Fauré, A. Stietel, C. Riglet-Martial, M. Sardin, P. Vitorge and F. Lefèvre . . . 279
Theoretical evaluation of a technique for electrokinetic decontamination of soils
J.-W. Yu and I. Neretnieks. 291
A simplified approach to modelling underground migration of radionuclides from contaminated river sediments
K. Štamberg, D. Vopálka, P. Beneš and O. Slávik 301
The development of a safety assessment model of the geosphere for a repository sited in the crystalline basement of northern Switzerland
P.A. Smith, A. Gautschi, S. Vomvoris, P. Zuidema and M. Mazurek 309
Using chemical models for evaluating the geochemical confinement capacity of a geological barrier. Application to the Centre de Stockage de l'Aube (France)
S. Altmann and J. Chupeau 325
